Oli / Front-End

SINCE MARCH 2022, REMOTE

A Startup of LiveCommerce, I was responsible for developing both products, Oli Short and Oli Live, scripts to show the stores' products in video format, also I've developed the admin platform to moderate and create videos.

Mageda / Front-End

FEBRUARY 2021 - MARCH 2022, REMOTE

Company where I work from home and with a big focus on the client's results. Here I worked on projects with Laravel, WordPress and React.Js.

ContabilOne / Front-End

JUNE 2021 - SEPTEMBER 2021, REMOTE

A Startup of tax technology, here I was responsible for rewriting the front-end from the system with two other developers using React.Js to serve big companies like "Americanas" and "Lupo".

Sorocabacom / Front-End

DECEMBER 2019 - FEBRUARY 2021, REMOTE

First company where I had contact with the responsibility of remote work. Here I worked on projects with Laravel, WordPress and React.Js.

128 Bits / Front-End (CTO)

OCTOBER 2018 - DECEMBER 2019, TERESINA, PIAUÍ

Initially a Web Agency, which ended up generating a Startup called Aquabit. Here I worked on projects with Django, Vue.Js, supporting the servers and assuming the responsibility of the startup's development team.
